

Lovespoons & Friendship Spoons

A heart shaped spoon for your loved one, inspired by traditional Celtic Lovespoons. The heart is shaped from two, small, carved bowls joined together as one. The meaning of the heart is a wish of everlasting friendship and love. The heart shaped bowl signifies bountiful life.

These spoons are beautifully handcrafted from native Pennsylvania hardwoods - wild cherry and curly maple. Lovespoons are a cherished gift for weddings, anniversaries, christenings, baptisms, confirmations, birthdays, Mother's day and Valentines. A perfect way to say "I love you" or just to say "thank you".

The Celtic Lovespoon dates back to the sixteenth century, when a young Welshman carved the first Lovespoon as an offer to marry the girl he loved. The Lovespoon was soon established as a Celtic symbol of betrothal. In the twentieth century symbols were added to the design. The symbols' meanings broadened the use of the Lovespoon to gifts between friends and loved ones.

You can choose to personalize the Lovespoon with name(s), date(s) and/or special phrases, to be engraved with a burning tool on the front or side of the handle, free of charge.

Your Lovespoon will arrive with a gift card explaining the history and meaning of the Lovespoon.
